

Burdett Birth Center understands that every birth experience is unique and special. We are dedicated to ensuring your baby's birth is a joyous memory you'll cherish forever.

“My experience was amazing and every aspect was perfect!”

– Nichole, Mom

“The staff was helpful and comforting every step of the way.”

– Liz, Mom

“I don't think words can express how grateful we are to have had the love and care provided by each and every staff member.”

– Erin, Mom

Birth Center**
A FAMILY EXPERIENCE

Advanced birthing care that feels like home

Our beautiful maternity hospital blends state-of-the-art medical technology with the warmth of a comfortable, homelike setting.

A birth experience built around you

You can choose the type of room that suits your preference:

- A quiet, comfortable single room where you will labor, deliver, recover, and receive postpartum care
- A spacious labor, delivery, and recovery room coupled with a private postpartum room

We also offer a wide selection of labor and birth care services and resources, including whirlpool baths, birthing balls, anesthesia services, and more. And if a C-Section is required, we have a state-of-the-art surgical suite.

Outstanding providers to meet your needs

Some of the region's premiere OB/GYN providers and midwives, along with our team of experienced Registered Nurses, deliver at Burdett Birth Center. So you know you and your newborn will be in the care of compassionate and skilled experts.

Family-centered approach to care

We're all about family at Burdett Birth Center. While a nursery is available if needed, our rooms are designed so that mother and newborns can remain together throughout the hospital stay.

Comfortable sleeper chairs are available in all of our rooms for fathers or primary support persons. We even have a cozy waiting area for families as well as a kitchenette for light meals.

Care and support every step of the way

We understand that the birth of a child can raise many questions. Our staff is here for you throughout the entire experience. We also offer labor and childbirth classes, as well as lactation classes and consultations.

VBAC after C-Section

Our highly experienced team of doctors and midwives offer a range of birthing options, including vaginal birth after Cesarean (VBAC). We are proud of our high VBAC success rate.
