ST PETER'S HEALTH  
PARTNERS

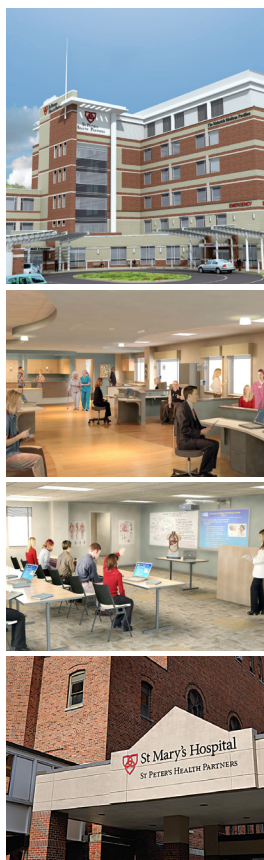

# We're taking health care in Troy **TO A WHOLE NEW LEVEL.**

For more than 150 years, Samaritan Hospital and St. Mary's Hospital have provided the residents of our community with high quality care. Now, as part of St. Peter's Health Partners, we're looking to raise the bar even higher with a **\$99 million** revitalization effort.

From now through 2017, this effort will include construction, renovation and modernization of facilities on both campuses, giving you access to new services, greater convenience and state-of-the-art care.

Our new five-story, Heinrich Medicus Pavilion on the **Samaritan campus** will feature:

- **Emergency Department** – with nearly double the current capacity
- **Intensive Care Unit** – with private rooms that are more than twice the size of current facilities
- **Progressive Care Unit** – with 28-beds in an optimum healing environment
- **Medical/Surgical Units** – two private floors designed to offer maximum comfort and care
- **New Parking Garage** – 550-space garage with direct access to Samaritan Hospital

Today, the **St. Mary's campus** has taken on a new role — offering a wide range of accessible, state-of-the-art outpatient services, including...

**Emergency Department** — fast, up-to-the-minute emergency care, 24 hours a day, 7 days a week, staffed by board-certified physicians and critical care nurses.

**Anticoagulation Clinic**

**Cardiac Rehabilitation**

**Diabetes Education**

**Endoscopy**

**Imaging (X-Ray, CT, MRI, ultrasound)**

**Incontinence Center**

**Laboratory Services**

**Medical Oncology**

**Outpatient Infusion**

**Outpatient Surgery**

**Podiatry Clinic**

**Primary Care**

**Pulmonary Function Testing (EKG, Echo, EEG)**

**Pulmonary Testing and Rehabilitation**

**School of Nursing**

**Sleep Laboratory**

**Therapy (PT, OT, Speech)**

**Women's Health Center (mammography, bone density)**

**Wound Care**

It's all part of a **\$99 million** effort to meet the evolving health care needs of Troy and its surrounding communities today...and prepare for a healthy tomorrow!
